### Full job description

Your new company

My client is an established medium density builder, who in addition to significant development projects on the go, have a significant pipeline of projects on the horizon which has resulted in them needing the industries best talent to assist in their delivery. With all sites to be south-eastern location.

Your new role

Working exclusively on townhouse sites consisting of approx 15-20 double and triple storey builds your role will include but not be restricted to

- Coordinate various trades and subcontractors to achieve outcome
- Report to internal stakeholders and advise on site progression and outcomes
- Manage and implement safe work practices across multiple stages of construction.
- Complete building progress reports, conduct site inductions for contractors and liaise with Building manager on key milestones.

What you'll need to succeed

- Trade base to call from is necessary
- Proven residential building supervision experience is desirable with medium density experience an advantage
- Individuals with knowledge of construction reporting and processes will look favourable
- Team focused with a high drive to succeed and progress in your career
- High verbal and written skills are needed for this role

What you'll get in return

This company is a big believer in future progression, and as well as providing an industry competitive salary package, look for those who want to grow a career within the business. With long term career opportunities available and performance rewarded, this is a role which could set up your career!
